Education

ShanghaiTech University, Shanghai, China

Ph.D. candidate in Communication and Information Systems, 09/2015-07/2020 (expected)

- Advisor: [Prof. Yuanming Shi](#)
- School of Information Science and Technology
- Research Topic: Generalized Sparse and Low-Rank Optimization for Dense Wireless Networks

Dalian University of Technology, Dalian, China

B.E. in Electronic Engineering, 09/2011-07/2015

- Advisor: [Prof. Yanqing Guo](#)
- School of Information and Communication Engineering 09/2013-07/2015
- Faculty of Electronic Information and Electrical Engineering 09/2011-07/2013

Honors and Awards

- National Scholarship for Graduate Students, 2017
- Student Merit Award, University of Chinese Academy of Science, 2017
- Student Merit Award, ShanghaiTech University, 2016

Experience

University of Toronto, Ontario, Canada

Visiting student, 2019.01-2020.01

- Host: [Prof. Wei Yu](#)

University of California, Berkeley, California, USA

Visiting student in BeSTEC program, 2016.10-2017.02

- Host: [Prof. Martin J. Wainwright](#)

Research Interests

My research interests include sparse and low-rank optimization, manifold optimization, machine learning, and their applications to dense wireless networks and distributed computing systems:

- convex and nonconvex optimization
- mobile edge artificial intelligence
- edge computing and caching
- intelligent IoT
